

Mosquito Ridge Trail Monument

We duplicated a Creeks grave marker which is on the Michigan Bluff side of the canyon. This is a monument to all the travelers who passed over the Mosquito Ridge Trail. The marker is just west on the old trail from the now called the Middle Fork Trail which runs from F.S. 96 (French meadows Rd) to the Middle Fork of the American River (old days called Rolston Ridge Tr). From crest of Mosquito Ridge turn right and follow old trail about 400 yds crossing a water ditch. Marker is beyond ditch about 200' on left
